

ESTATE VINEYARDS

Villa Amorosa, Napa Valley

This 30 acre estate vineyard surrounds the Castello in the rolling foothills of the Diamond Mountain District, and is planted to Cabernet Sauvignon, Primitivo. The unique, porous volcanic soils and extended sun exposure above the fog line help to produce rich and powerful Cabernet Sauvignons with chewy textures and diamond-hard tannins. Fruit from this vineyard goes into our Diamond Mountain District Cabernet Sauvignon, and Napa Valley Cabernet Sauvignon.

Varietals Grown: Cabernet Sauvignon, Primitivo

Diamond Mountain AVA, Napa Valley

Butala Estate Vineyard, Napa Valley

This 12-acre Castello Estate vineyard is located in the newest Napa Valley sub-AVA of Coombsville, just east of the town in Napa. It has very rocky, red volcanic soils and steep hillside slopes. It was planted in 1989 to several rootstocks and clonal selections of Cabernet Sauvignon, with one small block of Merlot. These 25-year-old vines produce a small crop of highly concentrated fruit.

Varietals Grown: Cabernet Sauvignon

Coombsville AVA, Napa Valley

Manley Estate Vineyard, Napa Valley

On the corner of Manley Lane & Highway 29 in Rutherford is Castello's newest estate vineyard located in the Rutherford AVA. Home of unique terrior and home to some of the Napa Valley's most historic and world-reknown wines. The property is part of the Rutherford AVA and is known for its exceptional Cabernet Sauvignon. The vineyard gives us a chance to continue our tradition of producing fine Napa Valley Cabernet's. The legend of Rutherford dust starts with the regions superior soil makeup. The lighter dirt on the valley floor helped differentiate it from the other Napa Valley AVA's. In Rutherford, the deeper soils and microclimates create longer growing seasons and 'hang time' that seem to round out the tannins in a soft, dusty style.

Varietals Grown: Cabernet Sauvignon

Rutherford AVA, Napa Valley

Cresta d'Oro Vineyard, Sonoma County

Originally named Pillow Road Vineyard, this newest Castello estate vineyard is located in the sub-AVA of Green Valley, on the southwestern edge of the Russian River Valley in Sonoma County. Situated only 15 miles from the coast, calm, foggy mornings give way to warm afternoons and cool, breezy nights, providing a perfect climate for growing Pinot Noir. Michael's Vineyard is planted with 12 acres of clones 115, 777, and Pommard 4, which are nourished by the Gold Ridge sandy loam soils of this historic district. The 2015 vintage was the first release of this Pinot Noir under the name Michael's Vineyard. The 2016 and 2017 vintages were bottled under the Three Arrows Ranch name, and the 2018 vintage onward will be named Cresta d'Oro Vineyard.

Varietal Grown: Pinot Noir

Green Valley AVA, Sonoma County

Morning Dew Ranch, Anderson Valley

This Castello Estate vineyard was purchased in 2015 from Burt Williams, founder of the iconic William Selyem Winery. The 12 acre vineyard, located just west of the town of Philo in Anderson Valley, is in a very cool microclimate and divided into 9 blocks of Pinot Noir planted with DRC, 115, 777, Rochioli, 23, and 828 clones. It will be sustainably farmed by our Vineyard Team and Manager, David Bejar. We anticipate the first release from this vineyard to be the 2016 vintage, which will be released to the public in 2018. Morning Dew Ranch was named one of the Top 5 Pinot Noir Vineyards in Anderson Valley in February 2018 by Wine Enthusiast Magazine (Jim Gordon).

Varietal Grown: Pinot Noir

Boonville Ranch, Anderson Valley

This Castello Estate vineyard is located just south of the town of Boonville in Anderson Valley, a coastal valley region famed for Burgundian and Alsatian varieties. This 34-acre ranch was

planted in the late 1990's to Pinot Noir, Pinot Grigio, Gewürztraminer, and Riesling. Our Anderson Valley Pinot Noir is a blend of five clones from this vineyard: 777, 115, DRC, Calera, and 667.

Varietal Grown: Pinot Noir, Pinot Grigio, Gewurztraminer and Riesling

Favola Vineyard, Mt. Veeder, Napa Valley

Purchased in the Fall of 2023. This 180 acre property sits at an elevation of 1,400 feet and can produce 50 acres of grapes. Almost 30 acres planted to mainly Malbec, will soon be transitioned to Cabernet Sauvignon, as the soil is perfect for Cabernet. Keeping some of the Malbec as a blending grape.

This property is beautiful, full of redwoods and oaks. There is abundant wildlife on the property including one or more mountain lions. From the top of the property one can see the Bay and San Francisco. Owner, Dario Sattui, plans to put the property in the Napa Land Trust, so it will never be built upon and remain pristine forever.

Varietal Grown: Malbec, Albarino, Cabernet Sauvignon
